OUR PANAMA CORRESPONDENCE.

PANAMA, Nov. 23, 1866.

The steamer Pacific, Captain Woolcott, reached this port on the 20th inst., bringing dates from Valparaise to the 3d, and from Callao and Lima to the 13th of November 18 of Nove ber. The Pacific brings a large quantity of cotton for the Liverpool market.

Liverpool market.

THE PERUVIAN ELECTIONS
have terminated, and the Prado party have been triumphant. The victory, however, in a political point of
view, was not regarded as an indication of the feeling view, was not regarded as an indication of the feeling throughout the country. The opposition did not muster half its strength, but will ere long make its presence known in another quarter. The fate of Botta and his fel-low plotters will act for a time as a wholesome check on

political malcontents in Lima.

PRACE NEGOTIATIONS
between Peru and Spain were going on. In reference to this subject a Lima correspondent writes:-

between Peru and Spain were going on. In reference to this subject a Lima correspondent writes:—

It is said that in consequence of the favorable turn matters have have taken the Spanish fleet, now at Rio-Janeiro and Montevideo, will not pass round Cape Horn. The terms proposed are all that Peru can reasonably expect, but it is very much feared that from the preparations for war this latter Power has made and is making that the disposition will be rather to dictate than accept terms. By the overland mail from Brazil we learn that two iron-chads and two steam frigates are to be added to the squadron of Admiral Nunez. The terms of pacification proposed on the part of Spain are all that Peru can reasonably expect. They are:—That Spain is to abordon the revolutionary claims, amounting to \$50,000,000; that private claims are to be settled by the courts of justice; and that simultaneously Spain and Peru are to salute each other's flags. The bar that might have been set up as a ground for not accepting these terms in regard to the bomoardment of Valparaise will be got rid of at the same thac, as Spain will arrange directly with Chile for any damages that the merchants of Valparaise might have assumed by the bombardment. Be this as it may, the six months' armistice will prevent any hostilities before this time next year, at the end of which time the allies will be in a better position to cope with, and, perhaps, defeat he Spaniards. Colonel Pradehas upon honorable terms. The war with Spain will be vigorously prosecuted is ould the efforts which are now being made by England, France and the United States to bring about a settlement of existing difficulties fait.

GENERAL CASTILLO'S ARREST,

of which you have already been informed, resulted in

his banishment to Chiloe, and for the second time within two years this unruly old veteran finds himself an exile.

when the news of his arrest was spread about it greatly excited the lewer classes, whose steadfast friend he has proved himself to be, and had he been brought ashore a bloody riot would have ensued. He was sent away, however, without the shadow of a trial.

THE ALEST OF RISIDE FUELTA, which took place some days previous to the sailing of the steamer, indicates that Frado means to persevere in his righteous policy of making the religious potentates subservient to the State authorities.

THE COMMISSIONERS TO CHER had not returned to Lima. The conference on the mediation question between Sr. Pacheco and the Chilean government was progressing with mutual friendliness.

Business continued dull at Guayaquil. Ther was a great scarcity of money on account of the redemption of the paper currency by the government, which had left the country without a sufficient circulating medium. The rate of exchance on Europe had been raised to fifty per cent. The Guayaquil Custom House was especied to yield \$500,000 for the present year.

Senor Attera has been nominated for the Vice Presidency.

Dates are a fortnight later. Congress was to have met in Guatemala on the 19th inst.
On the 19th ult, a sharp shock of earthquake was felt in Salvador, and another much stronger was experienced on the 1st inst.
Indice was abundant in Salvador. Prices range from seventy to eighty-five cents per pound.
Señor Guzman's election as President of Nicaragua, has been confirmed.

bishop!" "War against Antioquia and Panama!" A document had been circulated angresting the assassination of Mosquera.

This news indicates a movement on the part of Mosquera.

This news indicates a movement on the part of Mosquera subtreties to revolutionize the government, and calling it a monarchy instead of a republic, secure the elevation of their leader to the throne. To all intente and purposes the form of government is monarchical already. The startling scheme of creating an empire of one of the oldest South American republics may meet with less opposition than a stranger would suppose. The people are accustomed to sudden changes in the political landscapes and they have grown stoical under the many variations of fortune which have befallen them. Yet the word "Monarch" has a harsh sound to republican ears, and in all probability Mosquera will satisfy himself with the extension of his present term of office.

MINGORS TO THE PROJECTION OF THE PARAMA ILLIMOND.

The efforts of General Herran to induce the people of Panama to tay some tribute of respect to the memories of Henry Channeys and John L. Stephens, two of the original projectors of the Panama railway, has been crowned with success. The State Assembly before its adjournment passed the following resolutions, which I am requested to transmit to the Herrath.

Aurocas 1. The Legislative Assembly of the Sovereign State of Panama holds in the highest exteem the services of the world by the citizens of the United States of America, William H. Asphawall, John L. Venemens and Henry Channey.

Art. 3. A copy of this law shat be sent to William H. Asphawall, John L. Venemens and the place of the reas at the cost of the public teresury, shall be placed in the Sola (reception room) of the Executive Power.

Art. 3. A copy of this haw shat be sent to William H. Asphawall and to the heirs of John L. Stephens and Henry Channey.

Palbor Aronse Monarch 1966.

Palbor Aronse Monarch 1966.

Given in Panama, the 15th of November, 1866. PABLO AROSEMENA, President Given in Panama, the libin of November, 1896.

The proposition to erect a monument to the memory of Stephens and Chaunevy has not been definitely acted upon, but the energy and preseverance of General Herran will tell in the matter, as that within a year at fartheat the work will be under way. The feeling between Americans and Panamones—never the most cordina—will increase in freendiness after this just acknowledgment of the great services rendered to the country by the men whose names it is proposed to honer and perpetuate. The AGLUCKMENT OF THE LIBITATURE took place on the 12th inst. During the session several measures of general importance were passed, among measures of general importance were passed, among which were acts authorizing the building of gas works and water works, both of which will be menopolites for fitty years. New York capital will be required to do the work. The investment will be a good-one. The investment will be a good-one. The investment will be a good-one. The foreign companies for each of the state has appealed to Mosquery to reached the other works but he state has appealed to Mosquery to reach the companies. He says he is powerless to companies. He says he is powerless to companies. He says he is powerless to companies the repeal, both as a matter of policy and justice.

We have been having a "cold map" during the past week. The moreury has actually been as low as seventy-three degrees, and the daily average has been about eighty. Such weather is sinast unprecedented here. The establishment of a skating rink has been suggested, but upon reference to the face of the thermometer we find that a further declemant of fifty degrees must take
